

AKRITAS PROFILE

The Company

AKRITAS wood processing industry was founded in 1977 in the border city of Alexandroupolis, Greece. It is currently the only Greek particleboard production industry.

The raw material used by AKRITAS is high performance natural compact wood and its products are flexible, meet the highest quality and technical standards and cover even the most demanding market needs.

AKRITAS' production facilities, utilization of state-of-the-art technology, well-trained personnel and expanded sales network have rendered AKRITAS a pioneer in providing full and feasible solutions, adjustable to the needs of every project.

AKRITAS is a leader in the Greek market, regarding the production and establishment of internationally renowned products, and a major export player too. The company currently employs 250 people and its stocks have been trading on the Athens Stock Exchange (ASE) since 2000.

AKRITAS Ecosystem is Characterized by:

- ✓ Research and Design
- ✓ Technical Excellence
- ✓ Quality
- ✓ Production flexibility and high standards of customer service

Facilities & Infrastructure

AKRITAS headquarters are located in Alexandroupolis, Greece, and its production units in Tycheros, Evros, Greece – in a strategic position next to the Alexandroupolis port and train station, adjacent to the Egnatia Odos Motorway, in the heart of Southeastern Europe and the Balkan Peninsula.

The company has its own distribution centre in Thessaloniki and two sales offices in Athens and Thessaloniki, thus covering the demand throughout Greece.

Facilities:

- Plant: 60,000m² area of building infrastructure in a land of 370,000m²
- Distribution centre: 4,250m² warehouse
270m² display area
260m² offices area
in a land of 31,110.5m²

With an annual production unit capacity of 220,000m³ of particleboards and 16,750,000m² of melamine faced particleboards (three production lines), AKRITAS covers its partners' needs on time and faces all challenges in terms of production, sales and distribution.

- 📍 Industrial Facility - Tycheros
- 📍 Headquarters - Alexandroupoli
- 📍 Sales offices - Athens
- 📍 Sales offices & Distribution centre - Thessaloniki

Products

AKRIPAN® Particleboard

The innovative AKRIPAN® particleboard is the central product of AKRITAS. It is produced in a standard and waterproof version and in various dimensions, in order to cater for all needs. AKRIPAN® quality characteristics are in full compliance with European specifications ELOT and are acclaimed by both local partners and European competitors. Look for our FSC® - certified products.

Melamine Faced Chipboards

Melamine products come in a wide variety of colors (wood imitation and plain colours) and designs, with 11 surface textures for realistic and lively results. Melamine has become a favorite with interior designers and furniture makers, as a result of their wide range, digital printing and multiple interior fabricating applications.

POLYTHETA

POLYTHETA semi-finished products (worktops, kitchen tops, shelves) are a handy and quick choice for any construction. They have high technical characteristics and come out in a wide range of designs and colours. Moreover, they can be perfectly matched with the melamine faced chipboards series of products by AKRITAS.

Surfaces

AKRITAS surfaces come out in glossy, mat, handmade wooden and HPL versions. They are a perfect choice for contemporary furniture making, as they come out in many different colours, they have multiple applications and they can be easily matched with the POLYTHETA series of semi-finished products by AKRITAS.

Why AKRITAS

Greek Raw Material by Certified Producers:

AKRITAS uses mostly pure forestry from Greece, provided by certified producers who are compliant with the European Wood Board regulations.

Upgraded Mechanical Properties– Low Formaldehyde Emissions – Special Emulsion in All Products:

AKRITAS products have very low formaldehyde emissions and boast upgraded mechanical properties which give furniture:

- ✓ extreme solidity
- ✓ enhanced durability in joints
- ✓ flexure (load durability)
- ✓ prolonged life span

The entire range of AKRITAS products contains special emulsions, which provide dimensional stability in all storage conditions (something to be seen only in special/enhanced category products elsewhere).

Flexibility:

AKRITAS has the know-how to manufacture custom-made products to cover special, individual needs, even if it means overcoming difficulties or limitations related to size, dimensions, standard templates etc.

Alien Material – Free Particleboards:

Besides the obvious difference in the construction quality, AKRITAS particleboards are alien material free, thus doubling the life span of wood working and cutting tools.

Direct Service & Deep Knowledge of the Market and New Trends:

AKRITAS has organized a flexible distribution chain alongside a service department, which carry out specialized deliveries, provide partners with sample books, catalogues and related printed material, as well as tailored advice and suggestions.

Expanded Distribution Network:

AKRITAS distribution network caters for the wood needs of major furniture production units throughout Greece and in more than 20 countries abroad.

Certifications:

Greek - International Markets & Partners

The Greek Market

AKRITAS has organized a wide distribution network throughout Greece and, through wood trading companies and major furniture production units, has established more than 200 supply spots, thus becoming the biggest melamine distributor in the Greek market. AKRITAS creates and maintains long lasting commercial relationships with its partners, as a result of consistency, delivery precision and constant counseling and technical support. AKRITAS has a deep insight into the needs and demands of the Greek market and, at the same time, is always on the lookout for new developments and trends in furnishing and design. After more than 40 years in the market, AKRITAS is now the most influential company when it comes to defining and shaping the modern Greek design and furniture.

International Markets

AKRITAS is a highly extrovert company with international orientation – it has steadily established a well expanded sales

network, ensuring a long term presence in the Balkans region, the Middle East, Australia and South Africa, forming a portfolio of more than 50 clients worldwide. The regular participations in key industry fairs, the flexibility that allows win-win collaborations, alongside with international credentials and accreditations, have turned AKRITAS into a considerable export company – with its exports footprint consistently amounting for more than 20% of the company's revenues over the last decade.
