

MANUFACTURER'S SELF DECLARATION

COMPLIANCE WITH REGULATION (EC) 1907/2006 (REACH), SUBSTANCES OF VERY HIGH CONCERN (SVHC), AND REGULATION (EU) 2023/1464 ON FORMALDEHYDE EMISSIONS

AKRITAS is committed to the production and placing on the market of products that fully comply with the applicable European legislative and regulatory requirements concerning the protection of human health and the environment.

In this context, the company complies with Regulation (EC) No 1907/2006 (REACH - Registration, Evaluation, Authorisation and Restriction of Chemicals), which concerns the registration, evaluation, authorisation and restriction of chemical substances. For the company's products, specifically AKRIPAN®, HYDROPAN®, melamine-faced particleboards with a decorative melamine surface, and POLYTHETA® products, registration or pre-registration under REACH is not required.

AKRITAS provides all required information regarding Substances of Very High Concern (SVHC) and declares that none of these substances is present in its products at a concentration exceeding 0.1% by weight, in accordance with the requirements of the applicable legislation. At the same time, the company assesses and monitors its suppliers' compliance with the relevant REACH requirements.

Furthermore, the particleboards manufactured and placed on the market by AKRITAS comply with Regulation (EU) 2023/1464 and Entry 77 of Annex XVII concerning formaldehyde emissions. The company certifies that its products meet the applicable formaldehyde emission limits in force in the European Union and that such compliance is documented through appropriate control and verification procedures carried out by the company's Quality Control Department. These procedures are implemented in accordance with the applicable regulatory requirements and the certified ISO 9001:2015 Quality Management System operated by AKRITAS to ensure the quality of its products.

AKRITAS remains committed to responsible production practices, continuous monitoring of regulatory developments, and maintaining high standards of quality, safety and environmental compliance throughout all stages of its operations.
